Education

Texas A&M University

May 2028

B.S Computer Science, Minor Cybersecurity | GPA 3.5

College Station, TX

- Relevant Coursework: Data Structures & Algorithms, Artificial Intelligence, Linear Algebra, Statistics
- Clubs: Colorstack, NSBE, Aggie Competitive Programming Club, Aggie Coding Club

Experience

Software Engineering Intern

May 2026 - Aug 2026

Innovesta Consulting

Houston, TX

- Developed AI agents using **LangGraph** and **LangChain** for an educational AI platform that enables K-12 students to generate interactive games and learn AI concepts through hands-on experiences.
- Reduced average token consumption by ~10% across AI Agent systems by building rigorous prompt evaluation tests, analyzing token usage, and iteratively optimizing core system prompts.
- Researched and prototyped retrieval-augmented generation **RAG** pipelines using **pgvector**, evaluating vector search performance and integration trade-offs for future platform enhancements.

Project Manager & Lead Developer

Sept 2025 - Feb 2026

Aggie Coding Club - Aggie Agenda [\[github\]](#)

College Station, TX

- Programmed and deployed a full-stack academic planning platform with React, **PostgreSQL**, and Django REST Framework to aggregate campus hiring events and academic deadlines for **282+ users**
- Led and mentored a **20-person** team to build a Dockerized monorepo, coordinating development through **Git/GitHub**, **Jira**, code reviews, task delegation, Agile methodologies, and **CI/CD** pipelines.

Undergraduate Teaching Assistant

Aug 2025 - Present

Texas A&M University

College Station, TX

- Collaborated with a professor and 3 other peer teachers to instruct a class of **97 students** in **Python** fundamentals through debugging code, grading, and proctoring exams, and holding review sessions
- Directed weekly **C++** review sessions and office hours to troubleshoot code across the CS curriculum, including foundational programming, data structures, C++, Python, Haskell, and Assembly

Projects

Open Source Contributor | JavaScript, Node.js

Ongoing

- Selected for the inaugural **CodePath x Anthropic** Open Source Capstone cohort
- Shipped merged feature to **shields** (27k+ stars), resolving a long-standing issue by adding a new winget/release-date badge backed by the GitHub GraphQL API and YAML manifest parsing.

Fair Play AI - Mobile AI Referee | FastAPI, React Native, OpenCV [\[github\]](#)

- Developed an automated camera-powered mobile referee system for racket sports like pickleball in a 4-person team, winning **1st Place Overall** at the 2026 Build4Good Hackathon against **160+** participants.
- Engineered a real-time computer vision inference pipeline using **YOLOv8** and **OpenCV** to detect court boundaries, track ball trajectories, and automate sub-100ms in/out line-call decisions.

Leadership

Founder & Finance Lead

Nov 2024 - May 2026

TAMU FATE

College Station, TX

- Established a Freshman Leadership Organization at TAMU, scaled to 50+ members in its first year, and, through innovative fundraising strategies, successfully raised \$10,000+ for the organization.

Skills & Awards

Languages: Python, C++, JavaScript/Typescript, Java, SQL, HTML/CSS

Frameworks & Libraries: LangGraph, LangChain, React, Node.js, Django, FastAPI, Docker

Tools & Technologies: Git, REST APIs, AWS/Azure, PostgreSQL, Linux/Unix

Awards: TAMU Datathon: Hackathon Winner, Aggie Coding Club: 1st Place Project Manager Award
